About World of ABC, The Waldo School

World of ABC, The Waldo School has been a part of the Jersey City community since 2011. All class sizes remain at a reduced number well below the state ratio. Classes are paired with one Lead Teacher and one Assistant Teacher to ensure minimal student to teacher ratios as well as ensure the facilitation of one-on-one learning.

World of ABC, The Waldo School is proud to be an International Baccalaureate (IB) World School offering the Primary Years Program (PYP) for children. The IB is a prestigious academic organization based out of Geneva, Switzerland, that offers programs for elementary, middle, and high school students. The PYP aims to develop students who respect and care for others, who understand both the differences and the commonalities among people all around the world, and are committed to creating a better and more peaceful world.
